Calling all delegates:

vote for housing in the priority ballot

We can't passively wait for a future Labour government to resolve the housing crisis.

Conference must commit Labour to campaign for the current government to act to resolve the crisis now. This is a weak and shambolic government which has executed many U-turns. With pressure mobilised we can force it to U-turn on funding for council housing. Labour should be campaigning together with their councillors, the trades unions, and the new tenant unions for funding for council housing now.

Please vote for **'Housing'** in the priorities ballot. Please support our call for Labour to lead the demand for an end to housing crisis, vote in favour of our motion in the housing debate.

Resolution from Broadland, Manchester Gorton, Manchester Withington, Milton Keynes North, Milton Keynes South, North Cornwall, South East Cornwall, St Austell & Newquay, Truro & Falmouth

These CLPs have passed our model resolution, in some cases slightly amended to include the second home issue which is a big problem in Cornwall.

They all include the following:

"Conference, therefore, calls upon the Labour Party to demand that the government takes action now to end the housing crisis by:

- ***Delivering the building of 150,000 social rent homes each year, including 100,000 council homes funded by £10 billion grant a year.***
- ***Ending 'right to buy'.***
- ***Reviewing council housing 'debt' to address underfunding of housing revenue accounts.***

Conference also calls upon Labour to place these actions at the centre of its housing policies."
